

Decision IG.21/12

supporting the reforming of the Mediterranean Commission on Sustainable Development (MCSD), proposed by the MCSD Steering Committee

The 18th Meeting of the Contracting Parties,

Acknowledging the implications of the outcomes of Rio+20 on the Mediterranean Commission for Sustainable Development (MCSD) regarding the upgrading of the UN Commission on Sustainable Development into a High Level Political Forum,

Recalling the Decision IG20/13 of COP17, which invited the Steering Committee of the MCSD to "... work, on reforming the MCSD in particular through revising its composition to ensure greater representativeness and sharpening its role,

Recalling the current mandate and composition of the MCSD, which serve as a starting point for the strengthening of the MCSD (Decision IG 17/5 which adopted the Governance paper at the 15th Meeting of Contracting Parties to the Barcelona Convention held in Almeria (Spain),

Recalling also that the above-cited Decision IG 17/5 considered that the MCSD should involve the greatest possible variety of national actors in its work, so as to ensure the greatest possible dissemination of the concepts promoted,

Recalling on the one hand the constitutive documents of the MCSD from the fourth MCSD meeting in Monaco, 1998, as collected in UNEP(DEPI)/MED WG. 327/Inf.3 of June 2008, and on the other the Governance Paper of the Almeria COP in January 2008 (Decision IG 17/5),

Recalling also that the above-cited Decision IG 17/5 also underlined that all efforts should be made to ensure participation of representatives from both environmental and development sector and appropriate geographical representation, and media participation,

Appreciating that in the 17 years since its inception, the MCSD has made important contributions to the sustainable development of the region, including, particularly, the MSSD, and adopted by the 14th Meeting of Contracting Parties to the Barcelona Convention in Portoroz (Slovenia) in 2005, its innovative modalities of participation and engagement of civil society organizations and other major stakeholders, and the way the MCSD has been an innovation at the global scale as the only sustainable development commission at the Regional Seas level of UNEP,

Appreciating also that at the same time there is general recognition that, as with the Global Commission for Sustainable Development (CSD), there have been some shortcomings, such as the limited scope of the MCSD, which can be attributed to various factors influencing effectiveness,

Emphasizing that the objective of a strengthened MCSD should be the further integration of the environment pillar in other public policies, brought about through focusing on the interface between environment and development, and thus building on its successes and potential,

Taking note of the recommendations from the 15th Meeting of the Mediterranean Commission for Sustainable Development in Malta in 2013 in this regard, particularly with respect to the envisaged core functions of the MCSD,

Acknowledging that there is a need to balance ambition and realism, especially since the MCSD has had a relatively limited budget so far,

Considering the need for enhanced cooperation with other international and regional organizations and financial institutions such as the World Bank, the Union for the Mediterranean, the UNDP and the Secretariat of the UNFCCC, in particular in view of on-going negotiations to adopt a legally-binding new global climate change regime at the end of 2015,

Decides to:

Strengthen the position of the MCSD in the MAP system and in the wider regional community, in line with the outcome of Rio+20 and COP17 Decision IG.20/13, by ensuring that, sustainable development matters will be discussed at the Conference of the Parties once every two COP meetings (four years);

Sharpen the mandate of the MCSD so as to strengthen its role and contribution to integrate the environment in other public policies and call for the revision accordingly of the constitutive documents of the MCSD, including its 'Terms of Reference', 'Rules of Procedure' and 'Composition'; and present the revised documents for the consideration and approval of the COP in 2015;

Request the MCSD, with the support of the Secretariat, to review MCSD participation and its composition, while retaining its focus on environmental sustainability (as agreed at COP 17 in Paris) and the interface between environment and development, with a view to ensuring the sufficient membership and participation, as MCSD members, by the key regional sustainable development stakeholders as described below, and presenting a final proposal for adoption by the 19th COP in 2015:

- other UN specialized agencies and programs such as UNDP, UNIDO, FAO/ GFCM and UNESCO;
- partners representing the economic and social pillars of sustainable development;
- parliamentarians;
- the scientific community;
- local governments;
- representatives of wider Mediterranean processes, in particular the Union for the Mediterranean;

Request the Secretariat to support the MCSD to work further on forging partnerships and coordination between various actors, including the World Bank, the Union for the Mediterranean, and other UN actors besides UNEP such as the UNFCCC and the UNDP, to improve the implementation of the new MSSD;

Request the MCSD to encourage, through its meetings and operations, the exchange of good practice and to establish an on-line consultation platform for these purposes;

Request the Secretariat to prepare a proposal for the consideration of the MCSD on how a simplified peer review process could be put in place;

Request the Secretariat to support the MCSD in preparing input for COP discussions on Sustainable Development, including priority and emerging issues;

Invite the MCSD, supported by the Secretariat and Info/RAC, to be more effective and visible in its work and its communications, using technology to supports its work, specifying the exact nature of the outcomes it produces in response to each of its core functions;

Request the Secretariat to include participation of the MCSD in the process of preparation of the State of the Mediterranean Marine and Coastal Environment Reports.
